

Oleksandr Brukhtii

[Alex Brukhty]

Senior Full-Stack Web developer
Christchurch, New Zealand

I'm a senior Full stack Web Developer with 10+ years of experience in web development and graphic design.

My specialty is building complicated interactive and immersive websites with custom animations and interactions. I am passionate about pixel-perfect user interfaces and applications.

My academic background is in engineering, coupled with diverse experience in both design and web development. This allows me to approach problems with a wider angle, analysis and creativity.

In my day to day work i've used a variety of modern technologies with quality UX and web performance as the main goal.

I can handle projects independently as well as working in a team.
